## Department of Health Sciences

### Why Choose LSUE ?

Louisiana State University Eunice offers a comprehensive suite of Health Sciences programs, each tailored to equip students with the skills necessary for successful healthcare careers. For those interested in direct patient care, the hands-on programs in Nursing, Radiologic Technology, Surgical Technology, Respiratory Care, and Sonography provide extensive clinical placements and laboratory work, ensuring students gain practical experience essential for their future roles. Conversely, our programs in Medical Coding and Billing and Health Sciences focus on theoretical knowledge and administrative skills, preparing students for critical support roles within the healthcare industry.

With a strong emphasis on community health and patient care, LSUE's Health Sciences programs not only prepare graduates to meet the rising demands of the healthcare field but also instill a passion for lifelong learning and professional growth in their chosen careers. Join a program that is committed to making a meaningful impact in the lives of others!

LSUE also offers support services for Health Sciences students, including academic advising, tutoring, and mentoring. Students have access to modern simulation labs and clinical practice opportunities. The university also provides career services like job placement assistance, resume workshops, and networking events to prepare students for the workforce.
